

# Advent of Code 2016

SATURDAY, DECEMBER 3RD, 2016

I'm giving this year's Advent of Code<sup>1</sup> event a shot.

Since I'm also using this as a way of learning a little about literate programming<sup>2</sup>, the programs I write are also web pages describing themselves. I'm uploading those web pages to a subsection of this site<sup>3</sup>, where you can read my solutions and watch my progress.
